[DETAILS](#)

Good morning or Afternoon

I realize not all of our issued M14's have magazines in them, that's because we don't have enough magazines YET! If you don't have a magazine be patient as we are working on getting them. They are not cheap and are not easy to find. As for the 1911's some of you might not have a magazine for them I realize that. Again that is not our fault and we are working on getting those items also. For those who use your own squad rifle I can issue you an EOTech sight if you choose just come and see me. If you were one of the people that were issued an M16 A1 full auto I will be issuing you and EOTech sight. If you do not know how to operate the M14, 1911, or the EOTech come and see me.

Thanks Jesse
